

Hello Parents and Families,

Tucson Unified School District has partnered with Premier Medical Group to provide COVID-19 clinics at schools. This is a wonderful opportunity to have your student vaccinated in a familiar place with no appointment necessary. Please know that we respect your choice as a parent, and this is an **optional** program. Our goal is to offer an opportunity to our families that is easy, convenient, and quick. By having the event on site and immediately after school, families can take their students to the clinic immediately afterschool. Please read through the information below to guide you through this process.

Vaccinations and School:

- Students receive their vaccine on site.
 - This event is for Bonillas students, parents, family members and friends.
 - 1st, 2nd and Booster Shots available
 - Participants receive second dose 21 days later
 - No appointment is necessary
- 
- Once your student is **fully** vaccinated and **if** they are considered a close contact to the virus, they **do not** need to quarantine at home unless symptomatic. This allows students to spend more time in school.
 - Students are considered fully vaccinated two weeks after their second dose.

Event Details:

- 1st Dose Clinic:
 - o Thursday, January 6th
 - o 2:30pm – 6:30pm
 - o Location: Bonillas Caring Café
