

Hello Bonillas Families

Beginning Monday, May 3rd Bonillas Traditional Magnet Elementary will begin State mandated AzM2 makeup testing for grades 4 and 5. Families can bring their student into Bonillas any morning from May 3rd through May 14th to take any of the State AzM2 tests. Testing sessions begin at 8:30 a.m. Students usually take about an hour to complete one of the assessments, and then they will call the family to get a ride back to their house so they can return to remote learning.

Testing will take place either in the computer lab, or the counseling office depending on how many students participate on any given day. Air purification systems are in both areas and air from the outside is also present. Masks are required during testing and social distancing is built into each testing area. At the end of each testing session the entire room and all testing equipment is professionally sanitized.

Please contact Bonillas School Counselor at 520-232-6618 with questions regarding this opportunity and we hope to see you during the first two weeks of May.
